

ABOUT BLITZ

OUR IDENTITY

Founded by a passionate entrepreneur striving to accelerate the transition to sustainable urban transportation. Today BLITZ provides last mile solution services to food and delivery companies as well as sharing solutions for people living in urban areas.

OUR VISION

We aspire to become leaders of the global electric urban two-wheel revolution, and believe we have proved our growth potential by our successful beta in Tel-Aviv.

OUR MISSION

To design and build high-speed, robust and 100% electric scooters that are smart, sustainable and cost-efficient.

BLITZ MODELS

 **BLITZ 6000**

MOTOR POWER
6000W

DIMENSIONS
2160 / 800 / 1200 MM

NET WEIGHT
180 KG

CHARGING TIME
3.5 HOURS

MAX SPEED
120KM/H

MAX DISTANCE
100KM

 **BLITZ 3000X**

MOTOR POWER
3000W

DIMENSIONS
2000 / 670 / 1180 MM

NET WEIGHT
90 KG

CHARGING TIME
2 HOURS

OPTION L1E-B
200KM @ 45KM/H

OPTION L3E-A
120KM @ 90KM/H

TECHNOLOGY

BMS

BATTERY MANAGEMENT SYSTEM

A balanced and optimal energy capacity and consumption rate, keeping your battery cells intact.

BLDC

BRUSHLESS DIRECT CURRENT

No friction and a 91.5% electric energy to mechanical energy conversion efficiency ratio.

ESC

ELECTRONIC SPEED CONTROLLER

Controlling functionality and performance, by creating an AC sine wave to generate smooth and constant rotations.

CBS

COMBINED BRAKING SYSTEM

Managing brake pressure distribution evenly between both wheels for exceptional braking capacity.

EXCHANGEABLE BATTERIES UNLIMITED RANGE

1500W of energy and weighing only 7kg, our Lithium NMC batteries deliver impressive power and range, safely. Also featuring LED touch indication lights to track battery status.

The most advanced BMS technology to ensure a balanced and optimal energy capacity. Our BMS smartly manages the whole process, by providing enhanced safety at charging and discharging, and giving our riders over 1000 charging cycles.

Fast and easy charging with stackable units that allow multiple chargers to be connected to one socket. BLITZ chargers are waterproof, come in a sleek and compact design, and achieve 100% charge in less than 2 hours.

ADVANTAGES

SAVING

BLITZ scooters can save you up to 95% in your overall fleet energy costs, compared to gasoline vehicles.

SERVICE

Our full-service solution includes a 24/7 customer service centre on hand to support in the operations, insurance, branding & maintenance of your fleet.

SAFETY + DATA

Our scooters use powerful technology, helping to keep our riders safe and collecting data to improve driver behaviour and optimization.

SUCCESS STORIES & TESTIMONIALS

Domino's Pizza

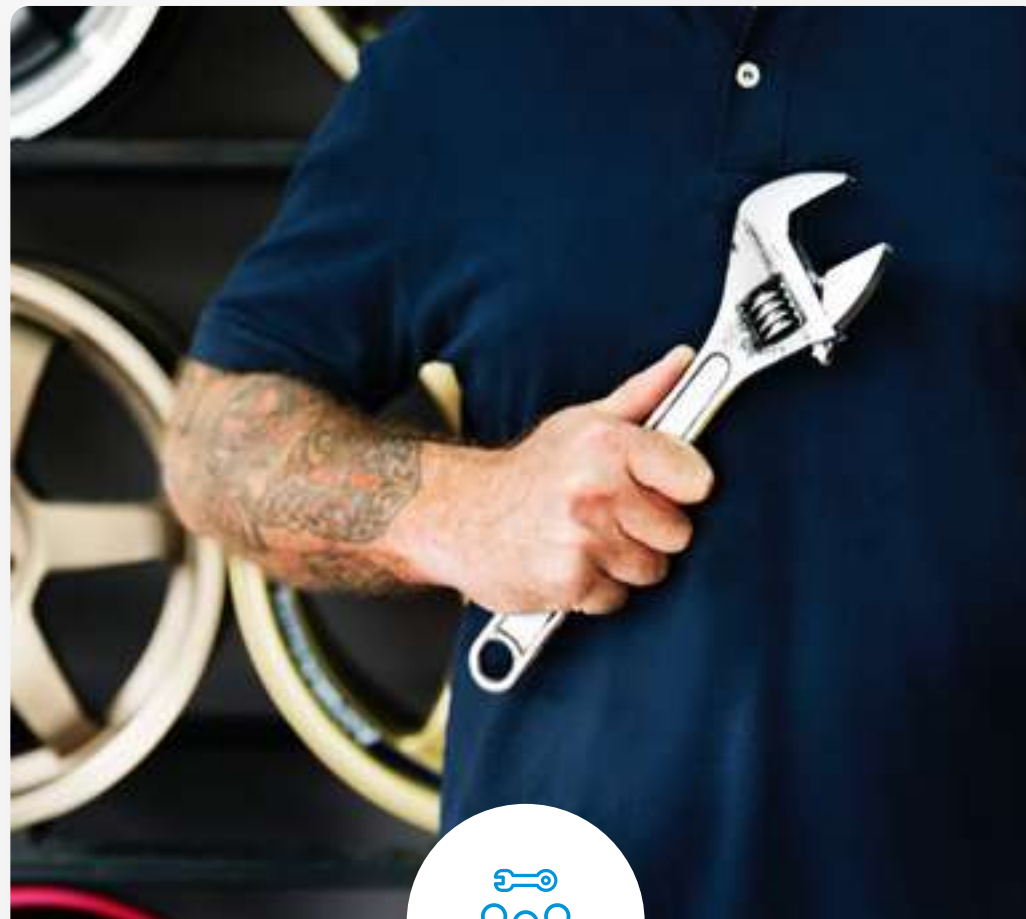

"Since introducing over 350 BLITZ electric scooters to our nationwide fleet, we have seen a 50% decrease in the number of scooter accidents. We believe this is down to changing from gasoline to BLITZ electric scooters, and the technology BLITZ uses in its range."

McDonald's

"We partnered with BLITZ to launch our delivery services across 198 restaurants in Israel and were impressed with the smooth deployment of fully branded scooters and the excellent customer service. Personal and attentive support available 24/7 only make the experience that much better."

MAINTENANCE & SERVICE AT YOUR DOORSTEP

SERVICE TEAM

Our reliable and professional team supports in operations, insurance, branding & maintenance of your fleet.

SERVICE TECH

Remote diagnostics over the cloud and Full-service solution includes a 24/7 customer service centre.

SERVICE ON-SITE

On-Site assistance and maintenance.

BLITZAPP FLEET + DATA MANAGEMENT

MANAGE

Full fleet management capabilities, both mobile and website

SECURE

Individual BLE ignition chips, completely keyless

LOCATE

Real-time GPS tracking including location, driver name, speed, distance, driving conditions, etc

REPORTS

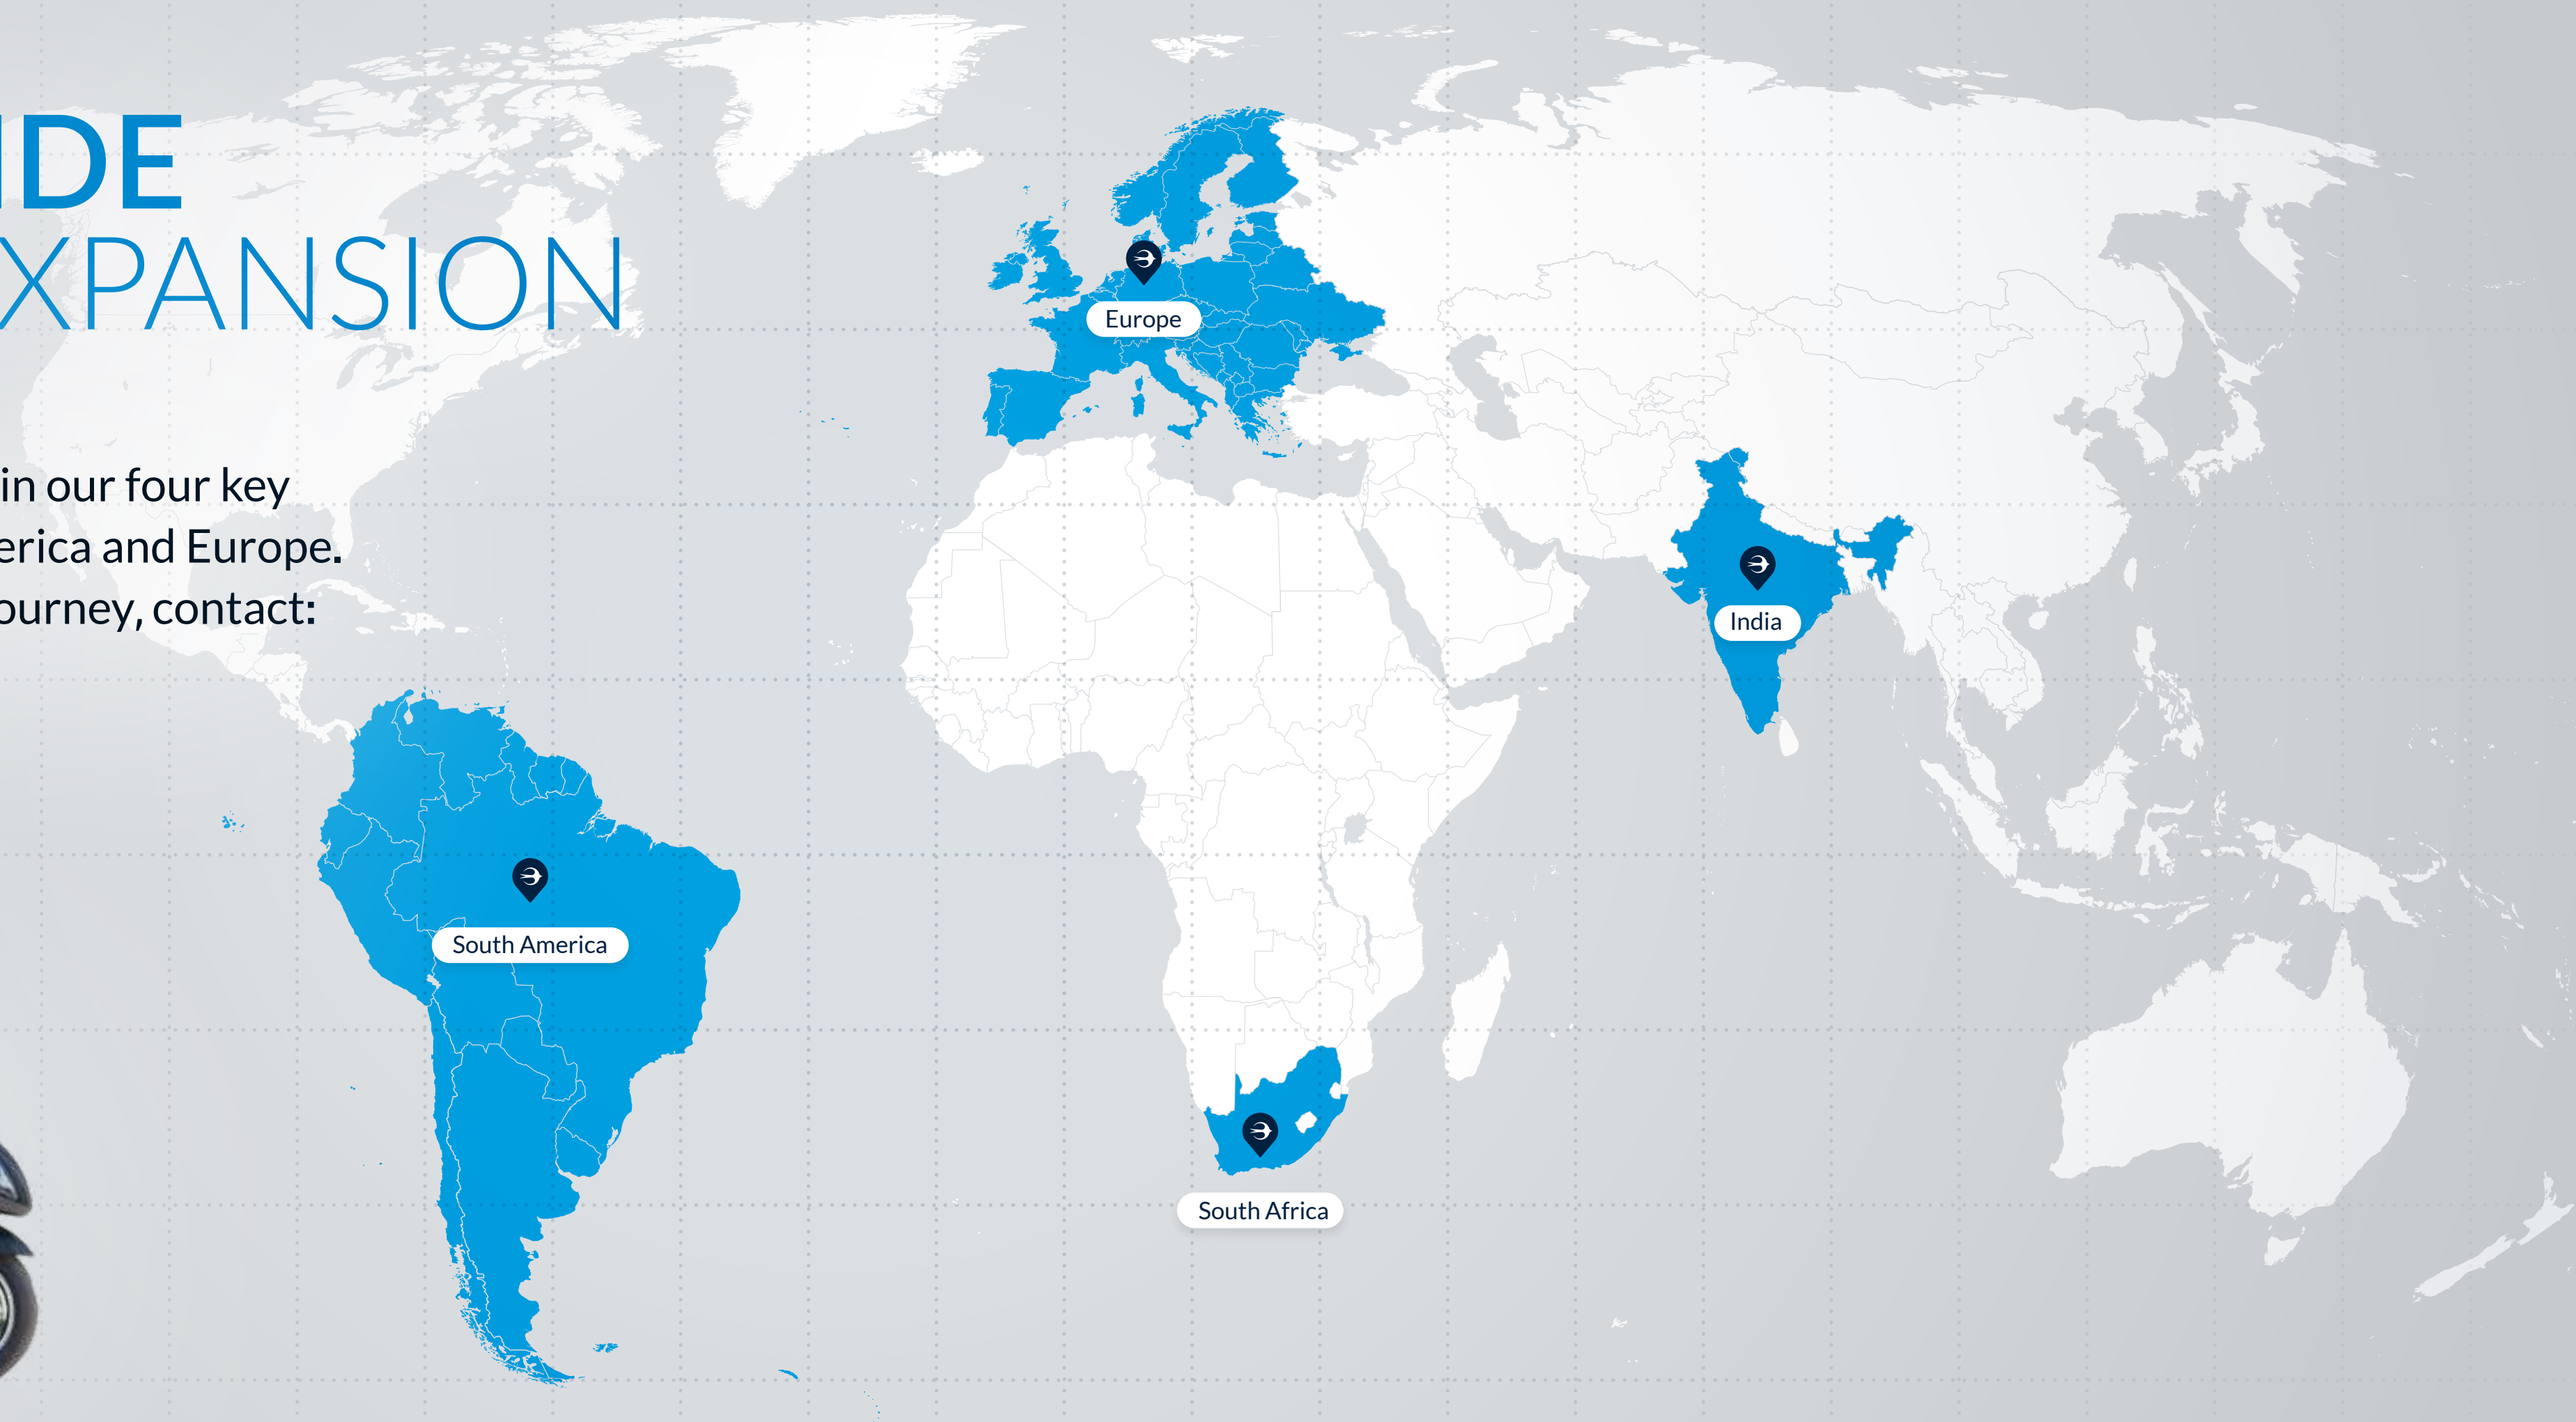

Customized historical reports summarizing data per item

DATA

Remote vehicle management, diagnostics and client API connection

WORLDWIDE MARKET EXPANSION

We are expanding our business in our four key markets; Asia, Africa, South America and Europe.
