**Nature of the event: *Sea Lion project – clarification following investor inquiries***

Further to investor inquiries and to the partnership’s report dated September 4, 2026 (reference number: 2026-01-083584) regarding the speech of the Honorable President of Argentina, Javier Milei, the partnership updates that the government of Argentina continues its activity to impose sanctions on those involved in the Sea Lion project as well as on other activities in the Falkland Islands. In this regard, and further to a report published in the media on behalf of a contractor related to the project, according to which it will not perform work on the Sea Lion project and will not participate in the exploration and production of oil in the Falkland Islands area, the partnership updates that it is acting to replace two breaching contractors and will continue to act to make adjustments to the project, as may be required. The partnership clarifies that it continues the development of the project with the full support of the Falkland Islands Government and the Government of the United Kingdom, and at this stage it estimates that no material adverse effect on the project is expected. The above assessments regarding the absence of a material adverse effect on the project constitute forward-looking information as defined in the Securities Law, 5728-1968, based on the partnership’s assessments, which are based, inter alia, on the information currently available to the partnership. Such assessments may not materialize or may materialize in a materially different manner if the replacement of the two breaching contractors is delayed or is not successful, or if the making of adjustments to the project, as may be required, is delayed or not successful, as well as if additional contractors involved in the project notify of refraining from activity in the Falkland Islands area and no satisfactory alternatives are found for them, and also if there is further escalation in the activity of the government of Argentina on this matter and additional regulatory and/or geopolitical changes occur which affect the legal and commercial assessments of the partnership and its advisors. For further details regarding the risks in activity in the Falkland Islands territory, see section 8.15 of the partnership’s Periodic report for 2025 (reference number: 2026-01-023779).
